

CRAWLEY HORTICULTURAL SOCIETY

Ifield Avenue, West Green

Crawley, RH11 7AJ

Welcome to the 2011 Show Schedule. Please read it carefully as we have, as always, made some changes to the classes. We have also made major changes to the Autumn Shows. Week 1 will now be all the floral classes and Week 2 is now Fruit and Vegetables, Domestic, Wine and Photography. We have also moved it to the 17th September as it was clashing with the RHS flower show and many members preferred to go there instead of our show. We are also introducing two Floral Art classes so I would like to see as many of you as possible showing off your artistic skills!

If you have never shown before why not give it a try this year? There is usually someone available to help you out if you are not sure what to do. If you can't show why not come along and see the shows.

Thank you in advance for supporting us.

TIPS FOR SHOWING VEGETABLES

Read the show rules and schedule carefully, the wording must be strictly adhered to. Note the difference between kind and variety. Kinds are distinctly different items e.g. onions and carrots while varieties (cultivars) are man bred variations of the same kind. e.g. Onward and Green Shaft are varieties of pea. Always show the correct number of exhibits as shown in the schedule.

Exhibits should be fresh, uniform and free of any pest or disease damage. Pots must be clean. Vegetable roots, carrots and potatoes should be carefully washed with a soft sponge so that the skin is not broken. Onions should have half an inch of dried stem bent over and tied with raffia or thread. Peas and beans should be cut from the plant and exhibited with a short stalk.

Blackberries and similar fruits should be exhibited with a short stalk and raspberries must be shown with the core intact. Finally, if in doubt when staging, ask a steward or fellow exhibitor. They will be pleased to help.

WHITE BREAD TIN LOAF

Ingredients:

For the yeast liquid:

1 tsp (5 ml) sugar

¾ pint (375 ml) warm water

2 tsp (10 ml) dried yeast

For the dough:

1.5 lb (600g) strong plain white flour

2tsp (10ml) salt

½ oz. (15g) margarine

Method:

Preheat oven to Gas Mark 7 (425F) or 220C). Dissolve the sugar in the warm water. Sprinkle over the dried yeast and leave for about 10 minutes or until the mixture is frothy. Sieve the flour and salt and rub in the margarine. Add the yeast liquid to the flour and work to a firm dough which leaves the sides of the bowl clean. Place on a lightly floured surface and knead the dough thoroughly for about 10 minutes or until it feels smooth and elastic. Place the dough in a clean bowl and cover with a damp cloth. Leave to prove until the dough has roughly doubled in size. Place on the floured surface and knead for about one minute to knock out all the air bubbles. Shape into an oblong and put into a greased 2 lb (800g) loaf tin, then re-cover with the damp cloth. Leave until the dough has risen just above the top of the tin. Remove cloth and bake the loaf in a hot oven for about 40 minutes. Cool on a wire rack.
